

# I.H.S.A.N

(The Islamic Humane Society for Animals)

*“There is not a creature that crawls on this earth, nor a bird that flies on its wings, but they are communities like you, and each one knows it’s own way of prayer”: Qu’ran Sura 6:38*

## FUNDRAISING AMBASSADOR

In 2001 The Islamic Humane Society for Animals embarked on a mission to raise funds for Mobile Veterinary Units, Clinics and Sanctuaries of Rest for sick, injured and overworked animals in Islamic countries. It is run as a Project and not a Charity for reasons stated on the website.

If you have the passion and dedication to work in a voluntary capacity for three months, to get this Project funded and you can sustain the funding ensuring that not one penny is wasted, you will have proved that IHSAN cannot manage without your expertise. You can now command your own realistic salary for this on-going role. The figure in mind is £35,000 - £40,000 unlike the extortionate salaries Charity Chief Executives are making. This is a good living wage.

The position is open to anyone with sufficient experience of moral fundraising, to plan and deliver a global strategy to maximise income from different sources.

Reporting to the Project Founder, you will be an excellent communicator, creative, confident, friendly, articulate and able to manage this large project. Self-motivated and able to identify prospective donors, preferably you will have a proven track record in this field.

You will be intelligent, persuasive and energetic to meet the demands of this challenging role, but above all, you must be honest and a person of the greatest integrity. The “**most important**” qualification, however, is a *genuine interest in, and a compassion for*, the welfare of sick and injured animals generally.

*The policy is that we strictly oppose the needless euthanasia of any creature with a “heart fresh with life” unless absolutely necessary. Otherwise, this is the ultimate failure of compassion and OUR spirit is degraded along with our status as human beings.*

This position requires knowledge of and a respect for ISLAM and the Islamic culture. This aspect is important, as the role will require travel to Islamic countries. Modest dress code is required, a good business brain and any legal and tax experience is a bonus. Pester power is not required. The job is open to anyone from any walk of life, any nationality or religion, and applications are especially welcome from the less physically mobile with brilliant ideas and exuberance.

If you feel that you have what it takes, and the willingness and determination to see it through, please email a letter with your full details in the first instance to [yvonnerogers.yr@gmail.com](mailto:yvonnerogers.yr@gmail.com) marked for the attention of the Project Founder, with any references from previous employers. A clean CRB is required. All dealings and transactions will be performed with transparency. Please consider the AIM of the Project before applying. Your heart must be in it.

This position initially can be on a “work from home basis” within a 30 mile radius of Portsmouth with daily updates by phone, email and in person. All funds received to be paid into the bank detailed online. All creatures are sentient, knowing, feeling, conscious and aware.

ISLAM SAYS: *“There is reward (good or bad) for every act towards every creature with a heart fresh with life”*

**We aim to campaign for the stunning of all animals prior to slaughter. Do not lacerate the body of a living creature. Do not set an animal up as a target.**

**“Animals cannot wait for the sufferings of human beings to cease”.**

**Animals have no voice, no choice and need to be on an Agenda.**

**This Project operates a bully-free policy. Freemasonry disclosure is required.**

**Peace and Blessings upon you.**
